

NAIL POLICY

- You may **NOT have acrylics** according to health code because of their potential to harbor bacteria. Regular polish, gel polish, and shellac are all allowed. All of these must be on your natural nails only and **NOT FAKE NAILS**
- You may now have any color or design except for solid black.
- You may not have any gemstones or attachments on your nails.
- If your polish is coming off, looks unappealing, is vulgar or inappropriate, or is not within our guidelines, we will have nail polish remover in the office, and we will require you to clock off and remove it immediately.

EARRING POLICY

- You are only permitted to wear small **METAL** studs. This does not include gemstones or pearls according to health code because they have a tendency to fall out of the earring.
- You may only wear two studs on each ear at one time. The placement of the earring does not matter (i.e. lobe, industrial, tragus, etc.) as long as you only have two studs in.
- You may not have bars, hoops, or dangle earrings, including chains that connect your piercings.
